

AP 12-Literature Summer Reading Assignment

Read 1984 by George Orwell and Brave New World by Aldous Huxley and write a comparative essay. Both of these are categorized as Anti-Utopian novels. Be sure to turn in an outline with your paper. Papers should be 600 word minimum, and each body paragraph should have at least one quote from each novel to support your topic sentence for that paragraph. Remember to turn in an outline and to cite your quotes. (Huxley 96) (Orwell 124)

Choose three issues that lend themselves to comparison and contrast. The final five-paragraph essay should be a minimum of 600 words. Both authors treat several elements that concern them (loss of individuality, sex, the family, propaganda, the government, classes of people, conditioning of children, dangers that may come to be and may have already manifested themselves, the media influence, etc.). Take the three elements that you notice the most and use at least one quote from each novel in each of the body paragraphs.

You will have a general quiz on 1984 and Brave New World the first day of school. After a discussion of each novel, you will have a test covering both novels around the end of August. Your essay is due on the first day of school as are your questions. Brave New World is an easier, faster read (June?). 1984 is a little more complex (July?). I would read it last. I have attached a study guide for each novel and a sample AP test question. Don't start the year behind- essay, quiz, quiz, study questions, and test- 5 grades right off the bat- Come prepared.

This is a sample AP Test question. Consider it after you read both summer reading novels. Take a few notes expressing your opinion. You will have an assignment using it after school begins.

(Suggested Time- 40 minutes. This question counts one-third of the total essay section score.)

In the following passage, the contemporary social critic Neil Postman contrasts George Orwell's vision of the future, as expressed in the novel *1984* (written in 1948) with that of Aldous Huxley in the novel *Brave New World* (1936). Read the passage, considering Postman's assertion that Huxley's vision is more relevant today than is Orwell's. Then, using your own critical understanding of contemporary society as evidence, write a carefully argued essay that agrees or disagrees with Postman's assertion.

We were keeping our eye on 1984. When the year came and the prophecy didn't, thoughtful Americans sang softly in praise of themselves. The roots of liberal democracy had held. Wherever else the terror had happened, we, at least, had not been visited by Orwellian nightmares.

But we had forgotten that alongside Orwell's dark vision, there was another—slightly older, slightly less well known, equally chilling: Aldous Huxley's *Brave New World*. Contrary to common belief even among the educated, Huxley and Orwell did not prophesy the same thing. Orwell warns that we will be overcome by an externally imposed oppression. But in Huxley's vision, no Big Brother is required to deprive people of their autonomy, maturity, and history. As he saw it, people will come to love their oppression, to adore the technologies that undo their capacities to think.

What Orwell feared were those who would ban books. What Huxley feared was that there would be no reason to ban a book, for there would be no one who wanted to read one. Orwell feared those who would deprive us of information. Huxley feared those who would give us so much that we would be reduced to passivity and egoism. Orwell feared that the truth would be concealed from us. Huxley feared the truth would be drowned in a sea of irrelevance. Orwell feared we would become a captive culture. Huxley feared we would become a trivial culture, preoccupied with some equivalent of the feelies, the orgy porgy, and the centrifugal bumblepuppy. As Huxley remarked in *Brave New World Revisited*, the civil libertarians and rationalists who are ever on the alert to oppose tyranny "failed to take into account man's almost infinite appetite for distractions." In *1984*, Huxley added, people are controlled by inflicting pain. In *Brave New World*, they are controlled by inflicting pleasure. In short, Orwell feared that what we hate will ruin us. Huxley feared that what we love will ruin us.
